make it a law and we will help. They have got the best of both worlds. They tell us to make it a state law so that we can make sure that we have to enforce it. Then we have to add extra personnel for enforcement just like we did with the 55 mile an hour speed limit. Let me guess who gets the blame for that. The truckers who came down here and filled that gallery up there, they weren't saying, "Well, listen, those guys up there in Washington are the bad guys. It is you guys down here on this floor." I'd ask that you'd adopt the Chambers motion. It is the most logical thing that I have heard in regard to the issue. If the Congress really wants it, if they really want it, they can pass it and then we will be happy to help them along and they can get part of the credit for it.
